Shopping Smart

Nina wanted to buy a new backpack. The first shop sold a fashionable one for $60. She almost bought it immediately. Before paying, she checked two more shops. The second shop had exactly the same backpack for $45 and also offered a free

water bottle. Nina bought it there and used the money she saved to buy a notebook for school.

Why was checking more than one shop a good decision?

A) She found a different colour to buy backpack.

B) She spent less money and received an extra gift.

C) She decided not to buy a backpack to save money.

D) She exchanged her old backpack to the new one.

15. (M–3b) Read the text and answer question.

Team Project

Four students had to prepare a presentation. Amir searched for information, Maya designed the slides, Leo practiced speaking, and Sara checked all the facts. They finished one day early because everyone completed their own task on time and helped each other whenever someone needed support.

Which statement best explains why the group succeeded?

A) One student did most of the work.

B) The project was very easy to explain and presenting.

C) Each member had a clear role and cooperated.

D) The teacher completed the difficult parts and helped for checking.
